## THE LIBIS GARDENS

*Specializing in Bulbs for "Better Glads"*

### Gladiolus

Our *gladiolus* stock consists of healthy, vigorous bulbs of select varieties.

Each year varieties are eliminated which seem the least interesting to visitors, each year some of the newer sorts are added. Thus the desirability of varieties is constantly attaining a higher excellence.

Our *gladiolus* and perennials are inspected by the Ohio State Department of Agriculture. We hold a certificate of nursery inspection issued by that Department.

All bulbs offered for sale are given a special treatment or fumigation as a precautionary measure against possible insect infestation.

#### SIZE OF BULBS

LARGE bulbs are  $1\frac{1}{4}$  inches or more in diameter.

MEDIUM bulbs are  $\frac{3}{4}$  inches to  $1\frac{1}{4}$  inches in diameter.

SMALL bulbs are  $\frac{3}{8}$  inches to  $\frac{3}{4}$  inches in diameter.

#### TERMS OF SALE

Gladiolus orders are usually shipped during late March and April, governed somewhat by weather conditions; Dahlias and Lily bulbs, during April and May. Perennial purchases are usually completed at the gardens, throughout the season.

Bulb orders of \$2.00 or over are delivered prepaid; orders of less than \$2.00 should include 15c for postage.

All goods are guaranteed to reach you in good condition, and to be true to label. Anything found otherwise; we hold ourselves in readiness to correct, to the extent of the price paid. If, through error or otherwise, there is cause for complaint, promptness in reporting it will be appreciated.

All stock is subject to prior sale.

Orders to be held for future delivery must be accompanied with 25% of the purchase price.

---

#### NOTICE! OHIO CUSTOMERS ONLY

SALES TAX—Add 3% to cover tax on goods delivered in Ohio. Stock for resale or commercial planting must be covered by resale certificate on goods delivered in Ohio. We will furnish this certificate on application.

---

Remittance should accompany your order, unless other arrangements are made. Make your remittance payable to

## COMMENT

We are mindful of the generous patronage of the past season, of both old and new customers, and say "Thank you" to every one. We are mindful, too, of the confidence and good will implied, and strive to merit its continuance.

It is our aim to offer the best in bulbs, roots, and plants. This requires experience and care in every stage of growth and development of plants and bulbs. Not only care in the field to produce strong plants, but close attention to storage of bulbs and roots during the winter months. Improper storage conditions impair the vitality.

Our crop of gladiolus bulbs for this season is of the best, - fine large, plump, clean bulbs.

Established 1899

For 38 years the products of The Libis Gardens have reached thousands of homes in Ohio and elsewhere.

During these years it has been a matter of pride to us that customers have returned again and again.

### THE BEST IS CHEAPEST

A bit of soil, - what possibilities! From it may grow a beautiful flower or an obnoxious weed; a delicious fruit or a poisonous plant.

An inferior plant or bulb requires as much care and space in the garden, and fertility, and sunshine as one of the best; and brings disappointment.

The slight cost of a good bulb or plant is more than justified by the satisfaction of having something worth while. Do not waste garden space on gladiolus, for example, which have deteriorated, or are of varieties which produce poor and undesirable blooms. Plant good ones of the more recently developed varieties which will produce magnificent blooms in a wider range of color and characteristics. These need not be the most expensive ones, for the best tried and true varieties are sold at moderate prices.

What has been said of gladiolus is true of Iris, Hemerocallis, and many perennials. In fact there has been a wonderful and marked improvement in all lines of horticulture.

The best plants, then, require no more labor or expense in the garden; and as they grow to maturity, interest and enthusiasm grow with them.

The expectancy occasioned by these new plants takes you into the garden every morning to see the flowers; and

you will have enough to keep the home supplied and some for a friend now and then.

### THE HEMEROCALLIS or DAY LILY

The Front cover picture is the Hemerocallis J. A. Crawford. This is one of the best varieties. The luxuriant growth of the clumps continues beautifully green and vigorous throughout the season.

#### The perfect perennial

The Day Lily is nearly perfect as a perennial. It does not winter kill. It is not troubled by insects or fungi. It blooms every season. It increases in bloom and beauty for several years. It may be divided any time the ground is in workable condition. It is easy to transplant. What more could one ask? What other perennial measures up to such a standard? For more about hemerocallis see page 16.

### HINTS ON GLADIOLUS

1. Plant large bulbs 5 in. deep.
2. A good plan is to stagger the bulbs in the trench making the row 2 or 3 bulbs wide.
3. If planted in rows, the trench may be filled only partially, drawing in more soil as the plants grow.
4. Watch the growing plants for thrips. If gray streaks appear on the foliage, it indicates the presence of thrips. It is advisable then to spray.
5. Cut spikes so that from 4 to 6 leaves are left for bulb development.
6. When digging bulbs, remove the stem at once by cutting close to bulb.
7. Remove bulbs from patch immediately when dug to prevent thrips reaching the bulb from the foliage.
8. It is important to dry the bulbs quickly to prevent development of fungous diseases.
9. Remove old bulb in 4 to 6 weeks after digging, and have the bulbs clean for storage.
10. If necessary to use fertilizer mix it well with the soil. Sheep manure 100 lbs., bone meal 100 lbs., potash 20 lbs. mixed, makes a good fertilizer.
11. We have not been troubled with thrips. This you may know by having visited our gardens or by having seen our flowers on display. Fumigation of all bulbs in storage, and mercuric chloride treatment of all bulbs planted, has given us immunity from injurious insects and has kept the bulbs clean and healthy.

Above Medals were won by Libis Gardens Gladiolus (See opposite page)

## NAPHTHALENE FLAKES

If thrips were present in your gladiolus it is advisable to use naphthalene flakes among the bulbs. After the bulbs are thoroughly dried, and preferably after they have been cleaned and are ready for storage, probably in November, use at least 1 oz. to 100 large bulbs, or equivalent bulk of smaller ones. Cover the bulbs, but not too tightly as there is always some evaporation. Naphthalene flakes do not harm the bulbs as long as they are entirely dormant.

## MERCURIC CHLORIDE

(Corrosive Sublimate or Bichloride of Mercury)

The indispensable and universally accepted treatment of gladiolus for disease cure and prevention is the Mercuric Chloride treatment. This treatment kills insects, such as thrips, and destroys their eggs, as well as the spores of fungi.

Soak the bulbs over night from 8 to 12 hours, in a solution of 1 oz. Mercuric Chloride to 7 gallons water. Dissolve the Mercuric Chloride powder in 1 qt. of hot water and mix it with the 7 gals. of water, which should be above 60 degrees.

## FIRST PRIZES AND SPECIAL AWARDS

Among the more important first prizes and awards won by The Libis Gardens Gladiolus in 1936 are the following:

**American Gladiolus Society Perpetual Challenge Trophy**, for the most meritorious display of the exposition. Here we had competition of growers of national prominence. National Gladiolus Exhibition held at Akron, Ohio, August, 1936.

**Ohio State Gladiolus Society Medal**, first prize for best artistic commercial display. National Gladiolus Exhibition, Akron, Ohio, August, 1936.

**Great Lakes Exposition Medal**, first prize for the best decorative and artistic commercial display of Gladiolus. Horticultural Exhibit, Exposition Grounds, Cleveland, Ohio, September 1936.

**Sweepstakes in Gladiolus**, Goodyear Garden Club exhibition, Goodyear Hall, Akron, Ohio, September, 1936.

Use a non-metal container, such as a crock or a wooden container.

If necessary to use the solution a second or a third time, add  $\frac{1}{3}$  oz. Mercuric Chloride to maintain the strength of the solution, and add enough water to keep the amount up to the 7 gallons. This treatment should not be done till planting time. Bulbs may be planted wet or allowed to dry first.

This treatment is recommended for all gladiolus bulbs each year, regardless of where obtained. It is an important factor for continued success with your gladiolus.

### SPRAYING

If it is necessary to spray the growing plants for thrips or other insects, there are a number of sprays on the market easily obtainable. If information or recommendation is desired, we will gladly answer your inquiry.

## THE NEW TYPE CLASSIFICATION

The New Type Classification of Glad-

iolus as adopted by the Ohio State Gladiolus Society in 1934.

### Exhibition Type

This type should have a straight stem with a long flower head with many large florets open at once, regularly placed and spaced.

### Decorative Type

This type must have purity of color, charm, gracefulness, pleasing and harmonious arrangement of florets, and other attributes that accentuate the decorative qualities of the entire spike ensemble.

**Small Decorative Type** should have the attributes of the Decorative Type except for the matter of size of florets which shall not exceed a diameter of three inches.

## ABBREVIATIONS

L.—Large bulb.

M.—Medium size bulb.

S.—Small size bulb.

Exh.—Exhibition Type.

Dec.—Decorative Type.

S. Dec.—Small Decorative Type.

Following the name of the variety is the name of the originator in parenthesis.

# The Gladiolus

## DESCRIPTIVE PRICE LIST

### LIGHT PINK

**BETTY CO-ED** (Briggs) (Dec) A soft creamy light pink. Three to four inch florets; tall straight wiry stems. Excellent for baskets and floral work.  
\*\*L. 12 - 60c.

**BREAK O'DAY** (Bill) (Dec) Attractive early pink with cream throat. Slender spike. Especially valuable for its earliness.  
\* L. 12 - 50c

**GIANT NYMPH** (Coleman) (Exh) Light rose-pink with cream throat. Tall, strong grower. An outstanding and valuable commercial and forcing variety.  
\* L. 12 - 50c

**MARIAN KOCH** (Austin) (Dec) The original needlepoint variety. Pink at tips shading lighter at center with creamy blotch. Long flower head.  
\* L. 12 - 50c

**MATIN SONG** (Austin-Libis) (Dec) Cameo-pink shading lighter at center; ruffled, eight blooms open at a time. Excellent form and placement. Florists' favorite.  
\* L. 12 - 50c

**MRS. CALVIN COOLIDGE** (Kundred) (Dec) Light salmon-pink with creamy throat. Ruffled. Medium sized floret.  
\*\* L. 12 - 60c (L. bulbs only)

**MRS. P. W. SISSON** (Coleman) (Exh.) A soft cameo-pink, tall spikes. A delightful and charming flower. An outstanding and popular variety.  
\*\* L. 12 - 60c

**PATRICIA CARTER** (Kundred) (S. Dec) Clear shell pink.  
\*\* L. 12 - 60c (L. bulbs only)

**PINK WONDER** (Kemp) (Exh) Shell-pink. Very large florets.  
\* L. 12 - 50c

### PINK

**BETTY NUTHALL** (Salbach) (Exh) Glowing orange-pink with light yellow throat. Late, very strong grower; valuable and one of the most popular.  
\*\* L. 12 - 60c

**BETSY BOB-UP** A sport of Betty Nuthall and a somewhat stronger grower. The color, a soft peach pink with yellow throat.  
L. 1 - 25c; M. 1 - 15c; S. 1 - 10c.

**CATHERINE COLEMAN** (Coleman) (Exh) Clear coral pink with throat of deep rose; good tall spike.  
\*\* L. 12 - 60c (Large bulbs only)

**CORAL REEF** (Austin-Libis) (Exh) Geranium-pink, shading to cream in throat with lines of white in center of petals and markings of begonia-rose deep in throat. 6 inch florets holding 10 or 12 open. Very long flower heads.  
\*\* L. 12 - 60c (Large bulbs only)

**EVELYN KIRTLAND** (Austin) (Exh) Sparkling rose-pink. Excellent tall spikes. A very old variety still good.  
\* L. 12 - 50c

**FRANK J. McCOY** (Briggs) (Exh) Pure two-tone pink bloom. Perfect placement, many blooms open at a time. Tall, strong grower, fine for exhibition.  
L. 1 - 10c; 3 - 25c; 6 - 50c; 12 - 90c.

**GLORIANA** (Betscher) (Dec) Golden salmon-pink with yellow throat.  
\*\* L. 12 - 60 (Large bulbs only)

**LONGFELLOW** (Decorah) (Dec) A charming pure pink flower of good size. Excellent, tall slender spike.  
\* L. 12 - 50c

**LOS ANGELES** (Houdyshell) (Dec) Pure pink with cerise feather in throat. Good forcing variety.  
\* L. 12 - 50c

NOTICE: For prices of various amounts and sizes of bulbs other than the price per 12, refer to the price schedule given below designated by an \* or a double \*\*. Thus “\* L. 12 - 50c” means 12 large size bulbs for 50c, and other sizes and amounts are quoted in the schedule marked \*. Exceptions to the regular price schedule are noted with each variety. 50 bulbs @ the 100 rate.

**OHIO STATE** (Austin) (Dec)  
Very early brilliant begonia-rose pink tinted lavender. Good tall spike.  
L. 1 - 10c; 6 - 55c; 12 - \$1.00

**OSALIN** (Salbach) (Exh)  
A deep coral pink. A good cut flower variety.  
\*\* L. 12 - 60c

**PICARDY** (Palmer) (Exh)  
Clear, light salmon-pink. Blooms are of exceptional and surprising size. Very tall spike. Wonderful exhibition and commercial variety. Most sensational "glad" of recent years.  
\*\* L. 12 - 60c

**ROSE-GOLD** (Austin-Libis) (Dec)  
Rose and gold as the name implies. Tall, graceful spikes. Late blooming.  
\* L. 12 - 50c

**SALBACH'S ORCHID** (Exh)  
Lavender rose pink, shade of cattleya orchid. Large, tall spike, holding many blooms open at a time.  
L. 1 - 10c; 3 - 25c; 6 - 40c; 12 - 75c

**SALBACH'S PINK** (Exh)  
Large flower of geranium pink. Very tall spike with many flowers open at a time.  
L. 1 - 10c; 3 - 25c; 6 - 40c; 12 - 75c.

**TYCKO ZANG** (Austin) (Exh)  
Immense salmon-pink blooms. Valuable late blooming exhibition and commercial variety.  
\* L. 12 - 50c

**WELCOME** (Austin) (Exh)  
Rich coral pink, light yellow throat; good size, ruffled, tall.  
L. 1 - 15c; 3 - 35c; 6 - 65c; 12 - \$1.20.

**W. H. PHIPPS** (Diener) (Exh)  
Light rose-salmon. Wonderful exhibition flower. Entire spike in bloom at once.  
\* L. 12 - 50c

WHITE AND CREAM-WHITE

**ALBATROS** (Pfitzer) (Exh)  
Strong, tall spikes of very large pure white flowers. Spikes should have support in the garden. Fine for exhibition.  
L. 1-10c; 3-25c; 6-40c; 12-75c; 25-\$1.35; 100-\$5.00.

**BRIDAL VEIL** (Austin) (Dec)  
Large ruffled blooms, straight spike, greenish tinged buds. Medium height.  
\* L. 12 - 50c

**CARMEN SILVA** (Prestgard) (Dec)  
Tall, pure white, slender stem. Good cut flower.  
\* L. 12 - 50c

**HELEN WILLS** (Salbach) (Dec)  
A clear chalk white with a bit of soft canary yellow at the throat.  
\*\* L. 12 - 60c (Large bulbs only)

**JERSEY CREAM** (Evans) (Dec)  
A real rich cream color. Tall spike, large florets, 8 or more open. Substance and placement excellent. Best cream glad-iolus. A new variety.  
L. 1-\$1.00; M. 1-75c; S. 1-50c; Bulblets, each 15c.

**JONK. VAN TETS** (Pfitzer) (Exh)  
Pure white very similar to Albatros.  
L. 1 - 10c; 3 - 25c; 6 - 40c; 12 - 75c.

**MAID OF ORLEANS** (Pfitzer) (Exh)  
A large white verging to cream in throat. Tall straight spikes. A very pleasing variety.  
L. 1-10c; 3-25c; 6-45c; 12-85c; 25-\$1.60; 100-\$5.50.

**MARY ELIZABETH** (Stevens) (Dec)  
Beautifully ruffled white with canary yellow throat.  
L. 1 - 15c; 3 - 35c; 6 - 60c; 12 - \$1.00

**NOTICE:** For prices of various amounts and sizes of bulbs other than the price per 12, refer to the price schedule given below designated by an \* or a double \*\*. Thus "\* L. 12 - 50c" means 12 large size bulbs for 50c, and other sizes and amounts are quoted in the schedule marked \*. Exceptions to the regular price schedule are noted with each variety. 50 bulbs @ the 100 rate.

**CASSANDRA** (Errey) (Exh) Blush pink with large crimson blotches.  
L. 1 - 10c; 3 - 20c; 6 - 35c; 12 - 60c.

**MME. MOUNET SULLEY** (Lemoine) (Exh) Ivory white with bright scarlet blotches.  
L. 1 - 10c; 3 - 30c; 6 - 55c; 12 - 60c.

**OLIVE GOODRICH** (Goodrich) (Dec)  
White tinted pink, shading darker at the edge of the petals.  
\*\* L. 12 - 60c

**PEACE** (Groff) (Exh) Strong growing white with purple spot in throat.  
\* L. 12 - 50c

**REVERIE** (Palmer) (Exh) Light pink shading to cream throat. A vigorous, healthy plant with slightly ruffled blooms.  
L. 1 - 35c; 3 - \$1.00

**ROSEMARIE PFITZER** (Pfitzer) (Exh)  
Very light blush pink on cream. Slight-

ly ruffled. Round florets on good tall spikes.  
L. 1 - 20c; 12 - \$2.00; 100 - \$15.00

**LAVENDER**

**ELIZABETH LIBIS** (Austin-Libis) (Dec)  
Large blooms of orchid lavender with cream throat; tall graceful spikes; popular, valuable early. A favorite with lovers of pastel shades. A consistent prize winner.  
\* L. 12 - 50c

**IDABELLE FIRESTONE** (Austin-Libis) (Exh) Large blooms of clear rose-lavender, deeper at tips, holding 8 to 10 blooms open. Substance and placement good. Tall. An attractive and desirable exhibition and commercial flower.  
L. 1-35c; 3-\$1.00; 6-\$1.75; 12-\$3.00

**MINUET** (Coleman) (Exh) Beautiful clear lavender. Excellent placement and spike. Decidedly popular.  
\*\* L. 12 - 60c

**REMINISCENCE** (Austin-Libis) (Dec)  
Persian lilac, feathered amaranth purple; blooms large, ruffled; spike always straight; mid-season.  
\* L. 12 - 50c

**THE ORCHID** (Sprague) (S. Dec) Lavender orchid color; lacinated florets, resembling a real orchid. Slender spike of medium height.  
\* L. 12 - 50c

**PURPLE**

**CHARLES DICKENS** (Pfitzer) (Exh)  
Very tall growing violet-purple. Floret of medium size.  
\*\* L. 12 - 60c (Large bulbs only)

**PRIM PURPLE** (Libis) (S. Dec) Pure Rhodamine purple. Tall graceful spike. Strong multiplier.  
\* L. 12 - 50c

**ROSEWOOD** (Austin) (Dec) Blending shades of red and purple.  
\*\* L. 12 - 60c

**NOTICE:** For prices of various amounts and sizes of bulbs other than the price per 12, refer to the price schedule given below designated by an \* or a double \*\*. Thus “\* L. 12 - 50c” means 12 large size bulbs for 50c, and other sizes and amounts are quoted in the schedule marked \*. Exceptions to the regular price schedule are noted with each variety. 50 bulbs @ the 100 rate.

{ Small - - -			.20	.30	.50	1.50

**RADIANT ORANGE** (Austin) (Dec.) Large blooms of clear apricot orange. Good spike. One of the most satisfactory and popular varieties of the orange color.  
\* L. 12 - 50c

**MAGNA BLANCA** (Salbach) (Exh.) Very large blooms with narrow petals on spike of exceptional height. Color, ivory or cream, deeper in throat. Spike must have support in the garden.  
L. 1 - 10c; 3 - 25c; 6 - 40c; 12 - 70c

## DARK VIOLET

**AIDA** (Pfitzer) (Exh) Very early deep violet with reddish blotch in throat.  
\*\* L. 12 - 60c (Large bulbs only)

**WEDGEWOOD** (Austin) (S. Dec) Deep violet purple with satin lustre. Tall, slender spike.  
\*\* L. 12 - 60c

## BLUE VIOLET

**AVE MARIA** (Pfitzer) (Exh) Medium blue violet with a small purple blotch.  
\*\* L. 12 - 60c (Large bulbs only)

**PELEGRINA** (Pfitzer) (Dec) A very dark blue violet. Florets of medium size with the buds giving color to the entire spike. Best in color of the so-called "blues" but stems very weak and need support.  
L. 1 - 10c; 3 - 25c; 6 - 45c; 12 - 85c

**VEILCHENBLAU** (Pfitzer) (Exh) Large flowers of rich violet blue. One of the best "blues."  
\*\* L. 12 - 60c

## ORANGE AND BUFF

**APRICOT GLOW** (Palmer) (Dec) Tall clear buff apricot; medium size blooms.  
\* L. 12 - 50c

**DUNA** (Palmer) (Dec) Soft light pinky buff shading to pale yellow at base of lip petals.  
L. 1 - 10c; 3 - 30c; 6 - 55c; 12-\$1.00

**HAPPY THOUGHT** (Austin) (Dec) Unusually attractive large ruffled rich orange floret. Decorative type of spike. Medium height.  
L. 1-25c; 6-\$1.35; 12-\$2.50; M. 1-15c; 6-80c; 12-\$1.50

**LA PALOMA** (Dusinberre) (Dec) Pure vivid orange. Tall, strong spike, healthy variety. Florets loosely spaced.  
\*\* L. 12 - 60c

**OLIVE MARIE BROWN** (Indian Hollow Farms) (S. Dec.) Apricot-orange. A new variety of much promise. Valuable for basket and floral work. Received an award of merit National Gladiolus

Show, Cleveland '31. Named by the Cleveland Garden Club.  
L. each 50c; 6 - \$2.50; 12 - \$5.00

**ORANGE BUTTERFLY** (Salbach) (S. Dec) A glowing bronzy orange. Small florets. Long flower head holding 8 or more florets open.  
\*\* L. 12 - 60c (Large bulbs only)

**ORANGE QUEEN** (Pfitzer) (Dec) A clear light orange with orange-red line in throat. A good spike and an old favorite.  
\* L. 12 - 50c

**SENORITA** (Salbach) (Dec) Large attractive blooms of good orange color, with red penciling on lower petals. Rather short spike, but plenty of bloom.  
\*\* L. 12 - 60c

**SPIRIT OF ST. LOUIS** (Mueller) (Dec) Large flowered burnt orange. Holds 6-8 blooms open at a time.  
\*\* L. 12 - 60c

**SUNNYMEDE** (Fischer) (S.Dec) Orange with deep red-orange blotches.  
\* L. 12 - 50c

**WASAGA** (Palmer) (Dec) A beautiful clear glowing buff with wide open ruffled blooms.  
L. 1 - 10c; 3 - 30c; 6 - 55c; 12 - \$1.00

### GLADIOLUS SOCIETIES

Along with the rising tide of floriculture and a realization of the importance of gladiolus has been the development and organization of many gladiolus societies throughout the country. These societies stimulate interest in the gladiolus by annual exhibitions and by monthly or quarterly publications, occasional bulletins, or a year book.

#### OHIO STATE GLADIOLUS SOCIETY

The Ohio State Gladiolus Society welcomes you into its membership. It publishes an occasional bulletin. The membership fee is \$1.00 yearly. Ohio State membership together with affiliated membership in the American Gladiolus Society, which includes subscription to the Gladiolus Review, is \$2.00 yearly. We have been informed that the publication of the Gladiolus Review will be resumed in March this year and will be issued regularly thereafter. Mail membership fees to Mr. R. P. Kelley, Secretary, 207 Buckeye Building, Akron, Ohio.

#### NEW MEMBERS OF THE OHIO STATE GLADIOLUS SOCIETY

For those customers whose orders amount to \$5.00 or over and with which is enclosed \$1.00 payable to Mr. Kelley, Secretary, for membership in the Ohio State Gladiolus Society, in addition to your order we will include bulbs of our selection, fully equal to or exceeding one-half the membership fee. If your order amounts to \$10.00 or more we will include additional bulbs equal to the full value of the membership fee of \$1.00.

Mr. L. J. Libis,

Dear Sir: I want to tell you how pleased I was with the gladiolus which I raised the past season from the bulbs which I purchased from you, and which by the way were clean, uniform as to size, and free from thrip.

The blooms were the most beautiful I have ever raised. They were marvelously colored, large and true to type.

I hope to add more varieties to my collection this season.

Respectfully yours,  
ULVA DURKIN, Akron, Ohio.

Dear Mr. Libis:

Our Gladiolus the past season were the finest, largest and most beautiful we ever had. The spikes were the strongest and tallest I have ever seen. We have moving pictures of them in colors and you must see them to believe it.

The bulbs dug last Fall were the largest and healthiest we ever grew. Our bulbs were bought from you the past two seasons, and we expect to get more this coming Spring.

Yours very truly,  
MRS. A. HARGRAVES,  
Silver Lake, Ohio.

Dear Mr. Libis:

I am anxious to get your new Catalog.

I want to mention especially the pleasing results I had from my planting of Yellow Primulas. They came through last year's severe winter siege well and bloomed luxuriously over a long period. Planted with Forget-Me-Nots, they were indeed a very pretty sight.

Last but not least, I took first prize with a spike of Picardy. I have had no trouble of any sort with bulbs bought from you. I always follow directions in Catalog as per soaking and planting and curing processes. Flowers are always large, good color, healthy foliage and bulbs clean.

I am looking forward to a good growing season this year.

MRS. GEO. A. SUMMER,  
Fairlawn, Ohio.

Dear Mr. Libis:

I was so pleased with our Gladiolus this last summer. The flowers were very, very beautiful. Picardy was especially lovely; and so was Idabelle Firestone, and Wedgewood, too. The flowers were tall and large, as gorgeous as any seen anywhere.

I followed instructions given in your Catalog for treating the bulbs before planting, and the plants were not troubled with thrips. When I receive your Catalog I plan to order more bulbs for this season.

Sincerely,  
MRS. GEORGE BERG,  
Akron, Ohio.

## THE SUPERB COLLECTION OF GLADIOLUS

We offer this season The Libis' Gardens Superb Collection of Gladiolus. This is made up of strictly first class, high grade, large size bulbs of many varieties and in a wide range of colors. This collection is made up separately for every individual order and we are nearly always able to modify the make up as to color according to the customer's desire.

For those who want fine flowers but do not care to keep varieties separate, the Superb Collection is the answer.

Priced at 100 Large size bulbs for.....\$3.00  
100 Medium size bulbs for..... 2.00

## CANNAS

Cannas give color to the garden or grounds by their continuous blooming and add a bit of tropical air by their luxuriant growth of large, broad, bronze or green leaves. Cannas serve well as a screen or a back-ground, their dense growth averaging about four feet high. They may be planted in beds 18 inches apart.

**CITY OF PORTLAND** Green leaves and the flowers, rose-pink in color; 3½ feet.

**KING HUMBERT** Bronze leaves, and scarlet flowers; four feet.

**RICHARD WALLACE** Green leaves, clear canary yellow bloom; 4½ feet.

**THE PRESIDENT** Green leaves and large flower heads or trusses of clear, deep crimson, the strongest bloomer; 4 feet.

**PRICE:** Started plants—After May 1st - each 20c. 10 - \$1.50.

**WHITE EMPEROR** Pure white, 28 inches.

**YELLOW GIANT** Golden yellow with black anthers, 30 inches.

**ZWANENBERG** Pure white with black anthers. Height 28 inches.

## HARDY PERENNIALS

Prices of perennials are subject to change.

It makes a difference if a 15c plant in the spring is grown till mid-summer or fall. It is then worth more.

It makes a difference if plants are dug with or without a clump of dirt.

Where two prices are given, as 25c-35c, it indicates plants of different lots, age or size. If ordered by mail we will furnish plants fully equal to the price you indicate.

On mail orders for plants amounting to less than \$3.00, add 25c for postage and packing. Other Terms of Sale same as on Page 2.

Heavy perennials may have to be shipped by express, collect.

Perennial purchases usually are completed at the gardens throughout the season.

Everything planted in the perennial garden should be mulched the first winter. Nearly everything is better to have a light mulch every winter. Lily bulbs should always be well mulched.

Clean wheat or rye straw is a good material to use for mulching.

**AJUGA REPTANS** - Bugle Weed Brilliant blue flowers. Excellent for carpeting. Clump..... 15c  
**ANCHUSA** Blue forget-me-not flowers, good rock garden plant. .... 25c

**WHITE DOTY** Tall growing pure white pompom. The clusters of white flowers are borne on long, strong stems, making an excellent cut flower variety.  
**WHITE BUTTON** A tall growing profuse bloomer of white, button type blooms.  
**PRICE:** Plants each 15c; except where noted.

## THE NEW KOREAN CHRYSANTHEMUMS

This new class of Chrysanthemums is considered hardier, and makes a surprisingly strong growth. Their exuberant early October blooming of bright pastel shades of single flowers, compels marked attention in the garden. The individual blooms are somewhat suggestive of the gerbera; and the sprays of blooms are useful as cut flowers.

**APOLLO** Said to be a sparkling combination of bronze, red and gold and suffused salmon; we prefer to call it a rich terra cotta. Three feet tall, blooms 2 inches across, one of the best for cut flowers. .... 25c  
**CERES** Old gold blended with chamois-yellow. This variety gives decided contrast in color to the others. Three feet, blooms 2 inches .... 25c  
**DAPHNE** Daphne-pink, blooms 3 inches; height 2½ feet. .... 25c  
**MARS** The most brilliant in the garden, a velvety wine-red, and the strongest grower, blooms 2 inches, height of bush 2½ to 3 feet.... 25c  
**MERCURY** Coppery bronze red. 2½ inch flowers; height 2½ feet. .... 25c  
**VULCAN** Glowing bronze - crimson..... 25c

## DAISY

**HARTJE AND ELDER** May flowering..... 25c  
**SHASTA** Large white daisies with long stems, fine for cutting. .... 25c

## DICENTRA or Bleeding Heart

**EXIMIA** Dwarf growing variety with lacy foliage and pink flowers. Blooms all season. ....25c - 35c  
**SPECTABILIS** The old-fashioned bleeding heart grown everywhere; rosy-red heart shaped flowers pendant from long graceful arching stems. ....35c - 50c

# Delphinium

Stately and beautiful in the garden, no perennial lends itself more advantageously for vases and baskets than the delphinium. Delphiniums will bloom two or more times during the season if flower stalks are removed promptly so that the seeds will not mature. Plant in spring or fall.

**ENGLISH HYBRID DELPHINIUM** Our strain of Delphiniums is grown from seed saved from the finest selected specimens of the best varieties grown, including the Wrexham, and the Blackmore and Langdon strains. These range in color from pale blue to deep, dark blue, including various shades of rose, lilac or lavender, and purple.

Each ..... 35c - 50c

**DELPHINUM CHINENSE** A dwarf variety growing from 18 to 24 inches with fern-like foliage; the color varies from medium light to dark blue; free blooming and useful for rock garden or the perennial border.

Each ..... 25c

## DORONICUM

Bright yellow daisy-like flowers blooming in May and June. Tall growing. Excellent and long lasting as a cut flower. Reliable for hardiness and for blooming.

..... 35c

## EUONYMUS

### Evergreen Bittersweet

**KEWENSIS** Very small dark green foliage valuable as a rock garden plant. .... 50c

**RADICANS** Trailing, compact growing narrow-leaved evergreen vine; for covering rocky banks or rough walls. 2 to 2½ ft. .... 75c

**RADICANS VEGETUS** Strong growing variety with round glossy leaves. Fine evergreen covering for buildings or wall. 2 to 3 ft. .... \$1.00

## GRASSES - Hardy Oriental Plume

**ERIANTHUS RAVENNAE** - Pampas Grows 10 feet tall with fine silvery plumes. .... 50c

**EULALIA** - Japan Rush Very narrow green foliage. 4 to 6 feet. .... 25c

**EULALIA** - Variegated Japan Rush Long narrow leaves striped with white. An abundance of silvery-gray plumes. 4 to 6 feet. .... 25c

**EULALIA ZEBRINA** - Zebra Grass The long graceful foliage of this variety marked with creamy bands across the leaf; grows 6 to 10 ft. with fine silver plumes late in the season. .... 35c

## GYPSOPHILA - Baby's Breath

**BRISTOL FAIRY** Produces large sprays of double white flowers of large size and blooms continuously throughout the season. This variety comes in grafted plants only. .... 35c

## IRIS

### GERMAN IRIS

The German Iris ranks prominently among the more important flowers, and during their blooming season hold full sway as a cut flower, as well as in the garden.

Of recent years Iris hybridists have been as active and ambitious as those in other fields. Their efforts have been rewarded by the acquisition of varieties of taller and more vigorous growth, with larger flowers of more exquisite coloring.

The best time to plant German Iris is from mid July to mid September.

The following list comprise some of the newer varieties of proven merit.

### NEWER VARIETIES

**ASIA** A beautiful silvery lavender blend with yellow beard. Late. 36 inches. .... 20c

**BRUNO** A fragrant, rich velvety bronze of excellent form of bloom and habit of growth. Late. 30 inches. .... 35c

**BUTO** Very early flower of deep royal purple to deepest violet. 30 inches. .... 35c

**COPPERSMITH** A fragrant and floriferous variety of rich copper bronze. Mid season. 28 inches. .... 35c

**NEPUTE NOMBLOT** Glowing rosy purple and bronze with a deep orange beard. This is a magnificent Iris in size of bloom, height of spike, and luxuriance of foliage. Late. 4 feet in height. .... 75c

**DUKE OF BEDFORD** A velvety deep rich violet purple. Large and strong growing. Mid-season. 36 inches. .... 25c

**EL CAPITAN** One of the largest Iris grown. The graceful and well-branched stems carry a large number of immense blooms. Color a light violet-blue. Early. 38 inches. .... 50c

**FREDA MOHR** An orchid-pink flower of pleasing fragrance. Blooms of the largest; of strong growth. Late. 50 inches. .... 35c

**INDIAN CHIEF** Early, medium tall velvety-red; very large blooms and a luxuriant strong grower. 32 inches. .... 50c

**LOS ANGELES** Great white flowers with the petals faintly edged with blue. Tall and widely-branched stems. Early, valuable, outstanding variety. 40 inches. .... 50c

**MAGENTA** Large ruffled flower of glowing red-violet. Excellent substance. Late 30 inches. .... 35c

**MORNING SPLENDOR** A fine well-branched red-violet Iris of proven merit. Fragrant. Late. 40 inches. .... 25c

**MRS. MARION CRAN** An unusual shade of brilliant rose pink. Medium size blooms on tall stems. Early. 40 inches. .... 35c

**PLUIE D'OR** A large flower of pure golden yellow with orange beard. The widely-branched stems bear many good sized buds and flowers. Late. 36 inches. .... 35c

**RAMESES** A prolific bloomer of slightly ruffled flowers of a rich rose blend. Mid-season. 30 inches. .... 50c

**REALM** Late flower of clear medium blue contrasted by a white beard. 40 inches. .... 25c

**SAN FRANCISCO** Very large pure white flowers edged lavender. A strong grower with tall stems. Mid-season. 40 inches. .... 50c

**SANTA BARBARA** Early vigorous pure lavender blue variety. 40 inches. .... 25c

**SHASTA** Pure white Iris named for California's snow-capped mountain. A reliable, hardy and vigorous variety with tall stems that bear many large pure white flowers. Mid-season. 36 inches. .... 35c

**WILLIAM MOHR** Very large deep orchid flowers, on stems of medium height. 24 inches. Early. .... 40c

**CLEMATIS** Light, clear, violet with variable veining at the base.

**COMMODORE** Tall-growing, deep violet-blue.

**DREAM** Standard light pink.

**GEORGIA** Soft shade of rose; early.

**GOLD IMPERIAL** True deep yellow.

**JUANITA** Tall-growing clear blue.

**LENT A. WILLIAMSON** Rich royal purple, very tall.

**LORD OF JUNE** Lavender-blue.

**MME. CHAREAU** White with edging of lavender.

**MME. GAUDICHAU** Very dark velvety-purple.

**OPERA** Deep red-purple.

**QUEEN CATERINA** Silvery pale lavender.

**QUAKER LADY** Smoky lavender with shades of yellow, blue and old gold.

**PRICE:** Strong divisions of each of the above varieties. Each ..... 20c

## DWARF IRIS

The dwarf iris commence blooming very early in the season, about April 10 and last for about 2 months. They usually grow from 6 to 12 inches. They are useful particularly for rock gardens and as low-growing borders. Plant throughout the season.

**ATRO-VIOLACEA** Deep violet purple. .... 25c

**EXCELSA** Pure yellow. .... 35c

**THE BRIDE** Blush white. .... 35c

## JAPANESE IRIS

The Japanese Iris bloom in June and July, after other Irises are through. For beauty of color and pattern, size of flower and plant, they are outstanding.

Plant in the fall. Besides the list below we have an equal number from which to select during their blooming season.

**FASCINATION** Double lilac pink, lightly veined white.

**GAKKA-NO-NAMI** Glistening creamy white; earliest, and very free bloomer.

**ISO-NO-NAMI** Suffused rose and blue over white, a large double; late.

**KUMO-NO-OBİ** Very full double flower, deep rose-lavender.

**MATCHLESS** Large double flowers, heavily veined blue on white, yellow center.

**QUEEN OF THE BLUES** Double deep blue veined white, gold center.

**SHADOW** Reddish-purple, single.

**PURPLE AND GOLD** Double rich violet-purple, with gold throat.

**PRICE**—Each of the above - per clump..... 35c

## GERMAN IRIS - Standard Varities

**AMBASSADEUR** Smoky velvety purple, 48 inches.

**ARISTOCRAT** Violet-blue veined with white.

**BRANDYWINE** Silvery blue.

**CAVALIER** Deep shade of violet blue.

## LILIES

### HEMEROCALLIS or Day Lilies

These perfectly hardy, fragrant lilies have come to the forefront for the perennial gardens. Recent developments in hybridizing have produced varieties greatly improved in vigor, size and attractiveness of bloom, and in clear colors of lemon, gold and orange; with blooming seasons of the various varieties running throughout June, July, and August.

**CASSIDA** An early variety of clear deep orange color. A tall vigorous grower and profuse bloomer. Blooming season June and early July. 3 feet. ....\$1.00

**GOLDEN DREAM** Clear, deep orange; very vigorous. Blooms in late July and August. In bloom from four to six weeks. 3 feet. ....\$1.00

**HYPERION** Large clear canary-yellow flowers on tall, straight stems. Mid-season. ....\$1.00

**J. A. CRAWFORD** Vigorous in growth; clear gold in color, an abundance of bloom with a unique an artful twirl of the petals. Commences to bloom in early July and continues in bloom for five weeks. 3 feet. .... .75

**LEMONA** Clear lemon color, tall. Blooming period starts July 12th. Extra good bloomer. 3½ to 4 feet.... 75c

**MODESTY** A large flower of pure soft yellow with reflexed petals. A refined and modest flower. An early variety commencing to bloom in early June. 2½ feet. ....\$1.00

**MRS. A. H. AUSTIN** Clear, deep orange, with broad and ruffled petals making a full cup-shaped bloom; blooming period commencing in mid-July. 3 feet. .... 1.00

**MRS. W. H. WYMAN** A late blooming variety of pale glistening yellow. Blooming period commences about August 1st. One of the best and most desirable varieties. 3 feet. ....\$1.00

**THE GEM** Apricot yellow, with blooming season commencing about July 1st. 3 feet. .... 75c

### The Older Varieties of Hemerocallis

**DR. REGAL** Late May and early June, pure orange yellow. 1½ feet. .... 25c

**FLAVA** The old-fashioned favorite, "The Lemon Lily," planted in nearly every garden. 3 feet. Flowers in June 25c

**FULVA** Reddish yellow, "The Tawny Lily," 3 - 4 feet. July. .... 25c

### FUNKIA - Lancifolia

Attractive mostly for the foliage which grows in symmetrical, round clumps. Should have at least partial shade. Two varieties, one with lavender flowers, and one with white.

each, clump. .... 35c

### MADONNA - Candidum

The old-fashioned white trumpet lily, planted in nearly all old gardens; 3 to 4 feet.

Large bulbs. ....20c-35c

### THE REGAL LILY

The Regal Lily is one of the most reliable of the hardy varieties and may be planted with confidence for a garden of lilies.

The trumpet shaped flowers are white, with a canary yellow throat; the reverse of the petals is tinted with pink or a rich maroon red in varying degrees of color.

The Regal Lily produces an abundance of pleasing fragrance, both in or out of doors; altogether the most outstanding hardy lily.

It is a profuse bloomer when well established, commonly with eight to twelve flowers on a stem, sometimes twenty-four or more. The height of the lily is from three to five feet. Its blooming season begins in late June or early July.

All in all, we wish to emphasize the hardiness, the reliability of blooming and the exquisite beauty of the Regal Lily a truly Regal flower.

THE LIBIS GARDENS - Akron, Ohio

PRICES

Bulbs, 4 to 6 inches.....each	\$ .15
Bulbs 4 to 6 inches.....doz.	1.50
Bulbs 6 to 9 inches.....each	.25

## PHLOX SUBULATA

### Moss or Mountain Pinks

Extensively used for rock gardens, borders, and for ground coverings. In April and May the moss-like foliage is hidden under masses of bloom. The various colors and varieties are indicated below.

<b>Alba</b> Pure white creeping phlox....	20c
<b>Atropurpurea</b> (New) red with darker center. ....	25c
<b>Blue Hill</b> (New) light blue. ....	25c
<b>Rosea</b> Bright rose pink. ....	20c
<b>Vivid</b> True pink. ....	25c

## POPPIES

### ORIENTAL POPPY (Papaver Orientale)

For brilliance of color nothing exceeds the Oriental poppies during their period of blooming in May, June, and early July. They increase in size and effectiveness for several years, with strong slender flower stems growing from 2½ to 3½ feet. If planted in August or September or early in the spring before there is much new growth, there need be no fear about their growing.

**Beauty of Livermore** Large flowers of dark crimson with black blotch; produces flowers freely. .... 35c

**Lula A. Neeley**...Brilliant ox-blood red; a true, pure unfading, dark red; the largest blooms of all, born on long, strong stems. .... 50c

**May Sadler** A large salmon-pink flower with black markings. .... 35c

**Mrs. Perry** Generally accepted as the best pink poppy. .... 35c

**Olympia** A double, very early, brilliant scarlet. Flowers about 4 inches in diameter. .... 35c

**Orientale** ("The Oriental Poppy") Large cup-shaped flowers of scarlet with purple-black blotches at base of petals. .... 25c

**Perry's White** White flowers with a maroon blotch at base of petals..... 35c

### PRIMULA - Primrose

An excellent strain of hybrids of white, and shades of cream and yellow, orange, blue, and red; large florets and large clusters of flowers, on robust plants. .... 25c

### PULMONARIA - Lungwort

A free-flowering plant, much earlier than Mertensia, and with blooms much resembling that flower. .... 25c

### PYRETHRUM or Painted Daisy

**Single Hybrids** In shades of pink and red. .... 25c

**Single White** Persian, Pyrethrum powder plant, fine for cutting. .... 25c

**Double White** Blooms freely and is fine for cut flowers. .... 35c

### RANUNCULUS - Double Buttercup

Low Spreading type. ....15c - 25c

### STATICE LATIFOLIA

#### Sea Lavender

Misty, lavender flowers on tall stems above a plant of dark green leathery leaves. A dainty filler.  
2 year plants..... 35c

### SEDUM - Stonecrop

The Sedums are low growing, of a spreading or creeping nature, and are used largely in rock gardens, and for covering loosely built walls for terraces, etc.

For lack of space we cannot describe the many different varieties of Sedums and rock garden plants. These are usually selected and purchased at the gardens.

Price of Sedums—from 15c to 25c, according to size of clump.

### VINCA MINOR - Trailing Myrtle

A trailing evergreen, commonly and very extensively used as a ground cover in shady places where grass does not thrive. Large plants - each..... 15c

### VIOLA ODORATO - Sweet Violet

**Prince of Wales** Rich deep purple; sweet scented. Does well in shade. .... 25c

**Rosina** Fragrant pink or old-rose flowers. This variety blooms profusely not only in the springtime, but also in late fall. .... 35c

## ROSES

We furnish the best grade, two-year, well rooted plants; - Hybrid Tea, Hybrid Perpetual, Polyantha or Baby Rambler, and Hardy Climbing roses, including the popular Patented Roses.

### HYBRID TEA ROSES

**Autumn** Burnt orange overcast with red. Fragrant and free blooming.

**Betty Uprichard** Salmon pink, exterior shaded carmine.

**Briar Cliff** True rose-pink.

**Caledonia** White, large, fully double.

**New Dawn** (U.S. Plant Patent No. 1) everblooming flesh pink.

**Paul's Scarlet Climber** Scarlet red.

**Silver Moon** Pure white.

### PRICE OF ROSES

Hybrid Tea .....	70c
Hybrid Perpetual .....	60c
Hardy Climing .....	50c
Polyantha .....	60c
Patented and new roses....	\$1.00 and up

## GOURDS

Gourds, these much beloved novelties of our grandmother's gardens are becoming popular in the gardens of today. The growing of gourds is not a passing fancy, on the contrary gourds have been found in ancient tombs. This alone proves that "there is nothing new under the sun." The limitless qualities of gourds are bringing them to the forefront in flowerland news. The fascination of their changing colors and

The Libis Gardens display of gourds was awarded the Sweepstakes prize.  
Great Lakes Exposition, Cleveland, Ohio, 1936.  
Member International Gourt Society.

shapes challenge gardeners and admirers to possess them. They "belong" in the garden of today.

The Lagenaria or large gourds are practical as well as ornamental. They may be used for doorstops, birdhouses, sewing baskets, letter baskets, lamps and many other novelties.

The Cucurbitas, or small gourds are used for decorative purposes usually arranged in wooden bowls, corn husk baskets, on trays of lead or copper, in a large gourd or mexican strings.

Indian corn or purple pop corn are interesting additions to a gourd arrangement. Gourds have become a recognized holiday table decoration.

Gourd seed in mixture of many popular varieties, including "Warties", Dolphin, Crane's neck and Gooseberry Gourds. The Gooseberry gour measures one third inch in length and is used for eardrops. Per trade packet. .... 35c

---

## FLORAL ARRANGEMENTS

We do floral work for weddings, parties, funerals and all other occasions. Our arrangements have received blue ribbons and medals at local, state and national shows.

ONE OF THE LIBIS GARDENS GLADIOLUS DISPLAYS

Friend Libis:

The bulbs I received from you did exceptionally well this past year; in fact, they were all prize winners. The varieties Commander Kochl, Golden Dream, Picardy, Olive Marie Brown and Emile Auburn all did particularly well.

First and second prize awards were obtained both at the American Gladiolus Society Show at Akron and the Great Lakes Exposition at Cleveland.

A beautiful vase of Emile Auburn won for me the Sweepstakes Award for the best display of Gladiolus at the Ohio State Fair at Columbus.

Sincerely,  
R. H. CHEETHAM,  
Cuyahoga Falls, Ohio.

My dear Mr. Libis:

Just a word concerning Idabelle Firestone and Elizabeth Libis, two of your introductions. At two of the largest Ohio State shows ever held, I won first in the Lavender Decorative Class with Elizabeth Libis. The shows were held in Akron, Ohio, in 1932 and 1933. In 1933, I exhibited Idabelle Firestone in two large shows, winning firsts in the Exhibition Lavender Class. At Solon, the Idabelle Firestone beat three excellent spikes of minuet; while at Bedford they defeated three equally fine spikes of Jubilee. Since that date, our customers' demand for use of these varieties in baskets has prevented our exhibiting them in competition.

Sincerely yours,  
LEE M. "PAT" PATTON.

Dear Mr. Libis:

The past year was one of great pleasure to me in the garden. This was quite largely due to the splendid results I obtained with the 700 Glad bulbs which I bought from the Libis Gardens last summer. If I achieve equal results with the twelve varieties of Iris which I got last fall I shall be greatly pleased.

Incidentally, the Chrysanthemums were a huge success, both the ordinary varieties and the Koreans. I believe that I had fourteen of the old-fashioned kind and they all bloomed at once and lasted for weeks.

I look forward to a great year in the garden this year and I can thank the Libis Gardens.

Very truly yours,  
BERT S. TAYLOR,  
R. D. No. 7, Akron (Fairlawn).

I have always had the greatest satisfaction from plants and bulbs purchased at the Libis Gardens. The Gladiola bulbs are of especially fine quality and give the best results.

MRS. M. D. KUHLE,  
Akron, Ohio.

I have always found your plants, seedlings and bulbs of the finest quality. I hope everyone will avail themselves of your excellent varieties.

MRS. R. W. FERRIS,  
Akron, Ohio.

Dear Mr. Libis:

As the Spring season approaches, and our thoughts again turn to gardening. I am reminded that I have not as yet received your 1937 Catalog and would appreciate your again placing my name on your mailing list.

You may be interested to know that last August at the National show of the American Gladiolus Society, I entered only eight spikes in the entire show and with these eight, I was awarded five first prizes and one second prize in their respective color classes. With one exception, these spikes were all grown from your bulbs. During the same month at the Gladius show at the Great Lakes Exposition a spike of Picardy, grown from one of your bulbs, won the first prize in its section against dozen of entries including some fine spikes of Frank McCoy.

I have always been particularly impressed with the fact that I have never encountered any thrip or other Glad diseases in growing your bulbs.

With kindest regards, I am,

Cordially yours,  
DONN T. CARNEY.

Dear Mr. Libis:

The Spring planting of sturdy stock from your gardens, transplanted to borders, French Marigolds in one and Rosy Morn Petunias with Ageratums in another,

IRIS LOS ANGELES

made gorgeous masses of color all through last summer.

Rows and clumps of brilliant, vari-colored tulips from your large, healthy bulbs, planted last November, are my anticipation for Spring.

And the Winter picture and decoration from your gardens has been gourd in the most interesting shapes, sizes and colors, all still in perfect condition.

With sincere appreciation of your splendid gardens and your kind and helpful interest at all times,

I am respectfully,

JENNETTE I. BARNES,  
Akron, Ohio.

Dear Sir:

It has been my pleasure from time to time during the past few years to buy from you numerous bulbs, Gladiolus and Regal Lilies in particular; together with the fact that I have purchased many times during these years cut flowers, grown by you, which have been the finest of their kind and have given me much enjoyment.

I can recommend all of your bulbs very highly, as your choice selection is very unusual and the best that has come to my notice.

Wishing you much success in your enterprise, I am,  
Yours very truly,

E. C. FOSTER,  
The Foster Office Supply Co.,  
Akron, Ohio.
